

18 April 2019

Prot. 483/2019

## **BORSA ITALIANA - MITCH Feed decommission**

Dear Borsa Italiana Customer,

Please note that the following communication, although directed to all Borsa Italiana Customers of the Real Time Market Data Agreement (“Agreement”), impacts only clients who are **connected directly through MITCH direct feed**; all the other clients receiving Borsa Italiana market data through GTP, GTP Lite, HSVF or those clients who are indirectly connected through a Vendor, will not be impacted.

The purpose of this communication is to provide you formal notification, in accordance with clause 7.2 of the Agreement of plans to **decommission the MITCH** real time market data feed on Borsa Italiana markets currently expected on **October, 21st 2019**.

The MITCH decommission is part of a ‘*hardware refresh*’ project, whose details has been already communicated to you by our Customer Relationship Management Technology team (“CRMT”), in order to continue improving the performance of our technological systems and continue offering you state of the art services. The MITCH decommission date will be confirmed by CRMT only after the successful outcome of the necessary testing activities that will be implemented starting from September 2019.

From the decommission date the Borsa Italiana MITCH feed will not be available and supporting multicast channels will not broadcast.

Therefore, Customers need to ensure that they complete the migration to the GTP feed prior to the decommission date.

GTP product and technical specifications can be found on the GTP section of the website at the following link: <https://www.lseq.com/areas-expertise/technology/group-technology/group-ticker-plant>.

If you have any questions about this announcement or for further information on GTP please contact your Customer Relationship Management Technology team on +39-02-7242512 or [Clients-Services@borsaitaliana.it](mailto:Clients-Services@borsaitaliana.it) or the Borsa Italiana Market Data Business Development Team on +44 (0)20 7797 3699 or Market Data Italy on +39-02-72426353, or email: [marketdataBIT@borsaitaliana.it](mailto:marketdataBIT@borsaitaliana.it)

Yours sincerely,

Raffaele Jerusalem
